

Masks for the mouth and nose

› available in 2 sizes

› 9 colours to choose from

› 5-10 days delivery*

Wearing mouth and nose masks can stem the spread of the coronavirus SARS-CoV-2 – both if you're exhibiting symptoms of the illness and also if you have zero symptoms. The three-dimensional mouth and nose masks from Dauphin are composed of a mesh filter structure with inner lining that makes it easy to breathe in and out. The fabric is made of 100% polyester which acts as a mechanical brake or barrier and thus limits the transfer of exhaled droplets or saliva when breathing, coughing or sneezing. The masks can be washed at 60° and are reusable. Available in two sizes and nine colours in a practical 10-piece set.
